#### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with J. Welsh on 9-18-2008. The examiner initiated contact with the aforementioned attorney in order to recommend changes to put the case into condition for allowance. As a result, the claims were amended have consist claim terminology and the specification to remove new matter and to clarify means plus function limitations.

2. The application has been amended as follows:

- Specification, page 3, lines 18-33 have been amended as follows:

FIG. 1 shows a cleansing and monitoring apparatus according to the invention which, in use, is positioned next to a dental chair. The cleansing and monitoring apparatus has a water intake 1 that is attached, in use, to a main supply of water, or alternatively, a tank of distilled water. The apparatus has an optional ion exchange water cleansing apparatus 2 through which water from the water intake 1 passes. The output of the ion exchange unit 2 is fed through a water supply monitoring unit 3 which is coupled to a flow signal generator 4 and integral processor 6 and electrochemical device 8. Signals from the flow signal generator 4, the monitoring unit 3 and the timer 5 are fed to a central processor 6 (FIG. 2) which provides control signals and power supply to the pump 9 and electrochemical device 8 and provides control of

pump 9. Water is then fed out from the electrochemical device 8. The unit also has an optional water cup filler 12 and cup holder and is also connected to hand instruments 11. The processor 6 (FIG. 2) can receive operating signals from these to assist in control of flow of the water through the overall unit, as well as control of the electrochemical device 8. In use, water is passed out from the device 8 and to the cup filler 12 and hand instruments 11 on the basis of detected signals and the requests of an operator.

- Specification, page 4, line 18, “10” has been deleted.
- Claim 4, line 2, “pump” has been replaced with —pumping means—.
- Claim 5, line 1, “unit” has been deleted; and in line 3, “unit” has been replaced with -- means--.
- Claim 6, line 1, “unit” has been deleted; and in line 2 “unit” has been replaced with —means—.
- Claim 12, line 2, “pump” has been replaced with —pumping means—.
- Claim 13, line 3, “unit” has been replaced with —means—.
- Claim 14, line 2, “unit” has been replaced with —means—.
- Claim 20, line 2, “unit” has been replaced with —means—.

### ***Required Drawing Changes***

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: in the replacement sheet 2/4 filed 6-30-2008, the lines making up the reference no. “6” will be uniformly dark and legible. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

- The closest cited art—Korin (U.S. 6773610) and Waggoner (U.S. 5,709,546)—fail to anticipate or render obvious, alone or in any proper combination, the control means that operates to receive data from the monitoring means (related to the operation of the dental unit in use) and data from the timer (related to both periods of dental unit activity and inactivity) and based on this data and also reference data to control the operation of the pump and the cleansing means to control the overall cleaning procedures associated with both the dental unit and DUWL—in combination with all the limitations in each of claims 1, 10 and 18.
- The equivalent structures for the means plus function limitations in the claims were stated on page 4 of the previous office action. In addition, the pumping means is considered to be the pump 9 on page 3 of the specification or structural equivalents thereof and the "control means" is considered to be the processor 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mr. Terry K. Cecil whose telephone number is (571) 272-1138. The examiner can normally be reached on 8:00a-4:30p M-F..
